NATHAN RODRIGUES

Brazilian, Single, 23 years old
Barragem – São Paulo - SP

PROFILE

Developer with solid experience in .NET and C# technologies. I have worked on backend and full stack applications, creating scalable and secure solutions. Experienced with relational databases (SQL Server, MySQL), version control with Git, and Windows/Linux environments. I work well in teams and follow agile development practices (Scrum), as well as project standards (Clean Code, SOLID). I'm always seeking to improve my skills and contribute to challenging projects.
